

TRENTON

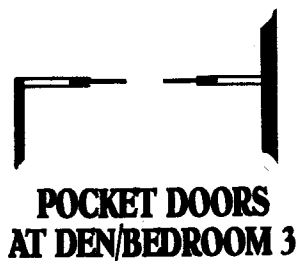

SQUARE FOOTAGE

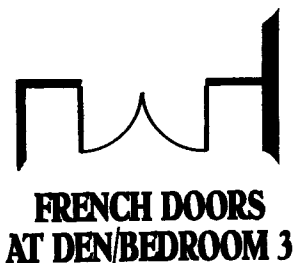

Living Area	2114
Garage	477
Entry	30
Lanai	327
Total	2948

The Trenton split floor plan features not only a separate master suite and adjoining bath with lots of walk-in closet space, but also two separate living areas. The living/dining area may be used for formal entertaining, while the family room with its huge bay window offers a more casual living approach. The adjoining kitchen has its own casual dinette and island, a great get-together room in itself. A wonderful layout for anyone!
