# SWFLA@MLS southwest florida mls

### **Residential Glossary**

The MLS Glossary is designed as a tool to allow for consistency and accuracy of data within the MLS as it relates to specific information regarding real property. The information presented is in the order of the MLS Residential Listing Input.

| Status        | This field describes the st<br>the listing/sale agreement. | tate of the listing and directly represents the state of   |
|---------------|--|--|
|               | Active   | There is a fully executed listing contract on the property and is being actively marketed. (Considered an on-market status.)   |
|               | Pending with<br>Contingencies                              | There is a fully executed sales contract on the<br>property; there are contingencies, such as inspections<br>or financing, and the seller could potentially be<br>accepting back-up offers. (Considered an on-market<br>status.) |
|               | Pending  | There is a fully executed sales contract on the listing.   |
|               | Closed   | The listing has sold.  |
|               | Terminated   | The listing contract has been cancelled and there is<br>no longer a listing agreement for the property.  |
|               | Expired  | The listing agreement has automatically ended based on the contract.   |
|               | Withdrawn  | There is a fully executed listing agreement on the<br>Property, however, it has been removed from being<br>actively marketed temporarily. (Considered an on<br>market status.)   |
| Residential   | A dwelling unit determin                                   | ed by the Land Use Code in the County tax records.   |
| County        | The name of the county t                                   | hat the listing is in.   |
| PID           | a property used by the Pr                                  | ntification Number. This is a unique identifier for<br>roperty Appraiser's Office. A property's PID can<br>lic Records search and is found on the Residential<br>VFLAMLS.  |
| Unlisted PID  |  | ket "Yes" if the PID is too new to be recognized by wner's information needs to be withheld.   |
| Street Number | The house/building numb<br>filling from Realist Tax.       | per. This will auto-populate from public records when  |

| Pre-Direction    | Direction of the street included in the address. i.e. N, S, E, W. The prefix "pre" refers to a direction that comes before the street name. This will auto-populate from public records when filling from Realist Tax.     |
|------------------|--|
| Street Name      | The name of the street. This does not include direction (N, S, etc.) or type (Rd, Dr, etc.) This will auto-populate from public records when filling from Realist Tax.   |
| Street Type      | Type of street. The options include Ave, Blvd, Cir, Rd, Dr, Way, etc. This will auto-populate from public records when filling from Realist Tax.   |
| Post-Direction   | Direction of the street included in the address. i.e. N, S, E, W. The prefix "post" refers to a direction that comes after the street name. This will auto-<br>populate from public records when filling from Realist Tax. |
| Unit/Apt. #      | The unit or apartment number, if applicable. The prefix "pre" refers to a direction that comes before the street name. This will auto-populate from public records when filling from Realist Tax.                          |
| City             | The name of the city the listing is located in. This will auto-populate from public records when filling from Realist Tax.   |
| State            | The name of the state that the listing is located in. This will auto-populate from public records when filling from Realist Tax.   |
| Zip Code         | The zip code for the area the listing is located in. This will auto-populate from public records when filling from Realist Tax.  |
| Geo Area         | The geographical area that corresponds to the location of the listing. These boundaries are determined by the MLS and can be found by using the "Layers" icon within a map search.   |
| Zoning Code      | This field indicates the zoning code for the property.   |
| Development Name | The name of the development where the subdivision/condo is located. These names are obtained from a pick-list in SWFLAMLS.   |
| Sub/Condo Name   | The name of the subdivision or condo where the property is located. Typically found in the legal description provided by the county. These names are obtained from a pick-list in SWFLAMLS.                                |
| Subdivision Code | Available only for Collier and Charlotte County properties, this code references the subdivision that the property is located in. The code will auto-populate when you select the Sub/Condo Name in SWFLAMLS.              |

| <b>Building Design</b> | This field describes the design of the structure. |
|------------------------|---|
|------------------------|---|

|                          | Single Family                         | Free-standing single dwelling unit structure with Single Family ownership   |
|--------------------------|---------------------------------------|---|
|                          | Low Rise (1-3)                        | A building comprised of 2 or more dwelling<br>unit structures, one on top of the other, with<br>up to 3 floors in total.  |
|                          | Mid Rise (4-7)                        | A building comprised of 2 or more dwelling<br>unit structures, one on top of the other.<br>Between 4 to 7 floors in total.  |
|                          | High Rise (8+)                        | A building comprised of 2 or more dwelling<br>unit structures, one on top of the other with<br>8 or more floors.  |
|                          | Villa Attached                        | 2 dwelling unit structures connected side by side.  |
|                          | Villa Detached                        | Free-standing single dwelling structure with Condo ownership.   |
|                          | Manufactured                          | A dwelling unit that is wholly or<br>substantially built in a factory with major<br>components then delivered to the building<br>site for assembly. Mobile homes, as well as<br>prefabricated stationary homes, are included<br>in the category of manufactured home. |
| Builder Product          | This field indicates if the property  | is available through a builder, typically new.  |
